

BLOOD NATIONS: BLACK OPERATIONS

Investor Pitch Deck

The Vision

Blood Nations: Black Operations is a competitive arena combat game where elite operators, mercenaries, assassins, and underground champions battle in a secret global tournament known as the Blood Gate. The game launches with modern combat archetypes and expands through DLC into historical warrior eras.

The Problem

Fighting games are crowded with martial artists, superheroes, and fantasy characters. Few titles allow players to explore the question: who would win between the world's deadliest fighters across time?

The Solution

Launch with a focused roster of modern operators and syndicate fighters. Introduce historical warriors through Blood Gate expansions, creating a scalable franchise with years of content opportunities.

Launch Product

12 fighters, 4 arenas, online multiplayer, ranked play, story mode, progression system, Unreal Engine 5.6 foundation.

Expansion Roadmap

DLC 1: Age of Warriors (Samurai, Gladiator, Viking, Spartan). DLC 2: Empires (Zulu, Janissary, Aztec, Persian, Shaolin). DLC 3: Legends (myth-inspired champions).

Business Model

Premium base game, fighter DLC packs, cosmetic content, seasonal events, esports partnerships, merchandise, and future media licensing.

Target Market

Fighting game players, history enthusiasts, competitive esports audiences, and action game fans worldwide.

Competitive Advantage

Unique combination of modern combatants, historical warriors, and cross-era matchups powered by the Blood Gate narrative.

Funding Request

Seed funding to build a vertical slice featuring 4 fighters, 1 arena, online play prototype, cinematic trailer, and publisher-ready demo.

Company

RC Technology LLC will own and develop the Blood Nations intellectual property and long-term franchise ecosystem.

Tagline

The World's Deadliest Fighters Enter the Blood Gate.
